SUMMARY

Senior Lead Technical Writer with 11+ years of experience building developer, API, SDK, product, and support documentation for enterprise software. Experienced in GenAI and Agentic AI platforms, FinTech, mortgage technology, DevOps, cloud, IoT, and SaaS. Skilled in documentation architecture, docs-as-code, content automation, API documentation, and documentation analytics. Partner with product, engineering, architecture, QA, and business teams to translate complex product capabilities into accurate, scalable, and usable documentation. Experienced in establishing documentation standards, improving content quality, and mentoring technical writers.

CORE EXPERTISE

- **API and SDK documentation:** API concepts, authentication, endpoint references, request/response examples, error handling, SDK guidance, and developer workflows.
- **Product documentation:** User and administrator guides, online help, implementation guides, FAQs, release notes, troubleshooting, and knowledge content.
- **Documentation systems:** Git-based authoring, Markdown, MkDocs, CI/CD publishing, automated quality checks, link validation, and review workflows.
- **Information architecture:** Content hierarchies, navigation, developer portals, knowledge architecture, terminology, and content organization.
- **Documentation leadership:** Requirements analysis, SME collaboration, documentation planning, content reviews, process improvements, mentoring, workshops, and knowledge sharing.

EXPERIENCE

Senior Lead Technical Writer

Kore.ai Software India Pvt Ltd Jan 2025 - Present | Hyderabad, Telangana

- Introduced documentation analytics and stakeholder feedback mechanisms, increasing click-through rates for high-traffic documentation by 8%.
- Established and managed docs-as-code repositories using Git, MkDocs, Markdown, and CI/CD pipelines, standardizing version control, reviews, and documentation publishing.
- Applied AI tools, prompt engineering, and structured content methods to support authoring, review, and publishing work for enterprise AI products.
- Improved editorial quality by 30%, based on Acrolinx results, by integrating Vale and CSpell checks into the documentation workflow.
- Delivered documentation for 55+ product releases across Agent Platform and enterprise AI solutions for IT, HR, procurement, banking, and healthcare.
- Mentored technical writers on information architecture, Microsoft writing guidelines, docs-as-code, MkDocs, Vale, CSpell, and process documentation, improving consistency across documentation workflows.

Specialist Technical Writer

◆ CORE SKILLS

Product documentation
Developer documentation
API documentation
SDK documentation
Docs-as-code
Information architecture
Content strategy
UX writing
Technical editing
Release notes
User guides and online help
Requirements and workflow documentation
Documentation reviews
Writer mentoring

⚙ TOOLS

Git and GitHub
Markdown and MkDocs
MadCap Flare
DITA and FrameMaker
Content Management Systems
Visual Studio Code
Figma
Postman
OpenAPI / Swagger
Confluence and Jira
Vale and CSpell
Google Analytics
TortoiseSVN

◇ TECHNICAL AREAS

GenAI and Agentic AI
AI agent workflows
Prompt engineering
RAG and NLP
AI governance
Documentation analytics
SaaS, IaaS, and PaaS
Cloud and DevOps
Microservices
Kubernetes and Docker
Python, HTML, and CSS
SQL and database concepts
Grafana and application data monitoring
Agent Blueprint Language (ABL)

Prompt Engineering - AI Tools
Introduction to ChatGPT and Generative AI

Fiserv India Pvt Ltd Jun 2022 - Nov 2024 | Noida, Uttar Pradesh

- Planned documentation strategy and content structures for administrator and developer audiences, improving consistency and usability across product documentation.
- Introduced a docs-as-code workflow that centralized source management and improved version control, review traceability, and publishing efficiency.
- Validated published documentation, links, and API examples using automated link-checking tools and **Postman**.
- Mentored two junior technical writers in technical writing, editing, documentation standards, and documentation practices.
- Designed information architecture for product documentation, knowledge articles, documentation sites, and developer portals. Organized hackathons, interconnect sessions, workshops, and knowledge-sharing activities to strengthen collaboration across teams.

Technical Writer

ICE Mortgage Technology India Pvt Ltd Oct 2020 - Jun 2022 | Pune, Maharashtra

- Created and maintained user guides, API reference guides, SDK documentation, FAQs, release notes, specifications, and online help for mortgage technology products.
- Collaborated with users, product teams, and internal stakeholders to gather feedback and improve documentation quality and usability.
- Managed documentation projects, priorities, and delivery schedules based on product releases and stakeholder requirements.
- Developed and maintained technical writing standards and style guidance to improve consistency across API documentation, user manuals, and online help.

Senior Technical Writer

Agiliad Technologies (XebiaLabs) Jan 2020 - Oct 2020 | Pune, Maharashtra

- Developed and maintained product and developer documentation for cloud and DevOps products.
- Managed multiple documentation projects from research and content planning through drafting, review, and publication. Reviewed technical content for accuracy, clarity, consistency, grammar, and style-guide compliance.

Senior Technical Writer

Cyient Limited Jun 2018 - Nov 2019 | Hyderabad, Telangana

Technical Author

AAE Oct 2017 - May 2018

Technical Author

AAA Jul 2013 - Aug 2015

SQL Essential Training

Learning Lucidchart

Power BI Essential Training

Agentic AI Workflow

CBAP certification

★ AWARDS

Global Spotlight Award - Kore.ai

Living Proof Recognition - Fiserv

Most Valuable Performer - Cyient

▣ EDUCATION

Bachelor of Science (B.Sc.)
