

Arpit Gupta

Senior Lead Technical Writer

Summary

Senior Lead Technical Writer with 11 years of experience creating developer, API, SDK, and product documentation for GenAI, Agentic AI, SaaS, FinTech, Mortgage, Clinical Research, DevOps, IoT, and cloud platforms. Experienced in Agentic AI workflows, AI agent orchestration, prompt engineering, RAG, NLP, AI governance, and enterprise AI platforms, with a strong focus on using AI agents to automate content creation, maintenance, quality assurance, knowledge management, migration, and publishing workflows. Skilled in docs-as-code practices, CI/CD pipelines, microservices, and intelligent automation that improve content quality, consistency, discoverability, and delivery speed. Proficient with Swagger/OpenAPI, Postman, Confluence, Git, Jira, DITA, MadCap Flare, ReadMe.io, WordPress, and Visual Studio Code. Recognized for building scalable documentation ecosystems, driving content governance and standardization, collaborating across product and engineering teams, and mentoring writers to deliver high-quality customer and developer experiences.

Experience

Senior Lead Technical Writer

Jan 2025 – Present

Kore.ai software India Pvt Ltd

Hyderabad, Telangana

- Leveraged analytics instrumentation and stakeholder feedback to increase top content Click-Through Rate (CTR) by 8%, enhancing content discoverability and user engagement.
- Architected and managed robust documentation repositories utilizing Git, MkDocs, and Markdown, implementing docs-as-code methodologies with automated versioning and continuous deployment pipelines for efficient content delivery.
- Applied AI-driven automation, prompt engineering, and structured content practices to optimize documentation authoring, review, and publishing workflows for enterprise AI products.
- Enhanced editorial quality by 30% (as measured by Acrolinx) through the implementation of linting tools such as Vale and Cspell for strict style enforcement and orthographic validation.
- Owned and delivered 55+ comprehensive documentation releases for a suite of custom AI solutions, including Agent Platform (Agentic and GenAI), AI for IT, AI for HR, AI for Procurement, AI for Banking, and AI for Healthcare within the AI solutions business unit.
- Mentored and coached a team of technical writers on advanced documentation frameworks, including Information Architecture (IA), Vale linting for MSTP, Cspell, docs-as-code principles, MkDocs, and process documentation, significantly strengthening team capabilities and improving overall documentation efficiency.

Specialist Technical Writer

Jun 2022 – Nov 2024

Fiserv India Pvt Ltd

Noida, Uttar Pradesh

Skills

- Doc-as-code methodologies
- SDK Documentation
- CI/CD documentation workflows
- Markdown
- MkDocs
- Git (GitHub)
- MadCap Flare
- DITA
- FrameMaker
- Content Management Systems (CMS)
- UX writing
- Content strategy
- Technical Editing & Style Guides
- VS code
- Figma
- Generative AI Tools
- Linting Tools (Vale and Cspell)
- Postman
- API docs (OpenAPI – Swagger)
- Agentic apps
- Atlassian Confluence
- TortoiseSVN

Technical knowledge

- Python, HTML, and CSS.
- Familiarity with microservice architecture, databases, Git, Grafana, etc.
- Familiarity with cloud, DevOps, and CI/CD flow.

- Familiarity with Kubernetes, Docker, and containerization.
- Agent Blueprint Language (ABL).

Certifications

- Advanced Technical Writing: Enhanced expertise in crafting clear, concise, and effective technical documentation.
- The Art of API Documentation: Specialized training in documenting complex API structures for developer audiences.
- Introduction to ChatGPT and Generative AI: Gained foundational knowledge in leveraging AI for content creation and assistance.
- GitHub for Technical Writers: Proficient in using GitHub for version control, collaboration, and managing documentation workflows.
- Prompt Engineering – AI Tools: Developed skills in crafting effective prompts to elicit optimal outputs from AI tools for documentation purposes.
- Agentic AI Workflow: Understanding and documenting advanced AI workflows involving autonomous agents.

Awards

- Global Spotlight Award: Recognized for exceptional contributions and impact on a global scale.
- Living Proof Recognition: Acknowledged for demonstrating outstanding performance and commitment.
- Most Valuable Performer (Individual and Team): Awarded for consistently exceeding expectations and driving team success.

overall documentation structure to effectively address the needs of diverse user groups, from administrators to developers.

- Implemented a new docs-as-code documentation management system, significantly reducing document publication time by enhancing version control, review tracking, and source repository management. Utilized tools like Link Checker and API testing tools (e.g., Postman) to ensure and maintain the quality of published documentation.
- Mentored two junior writers from the ground up, guiding them in enhancing their writing, editing, and documentation skills, demonstrating strong coaching and performance management capabilities.
- Designed and implemented the information architecture for all documentation deliverables, knowledge articles, documentation sites, and developer portals, ensuring optimal user experience and discoverability.
- Led cross-functional initiatives such as Hackathons and interconnect sessions to foster enhanced communication and collaboration between teams, including organizing workshops and knowledge-sharing sessions.

Technical Writer

Oct 2020 – Jun 2022

ICE Mortgage Technology India pvt ltd

Pune, Maharashtra

- Developed, edited, and reviewed a comprehensive suite of documentation, including user guides, API reference guides, SDK guides, FAQs, and release notes, to facilitate seamless integration of software systems for customers and developers.
- Conducted usability testing and gathered feedback from users to improve the effectiveness of documentation.
- Managed large-scale documentation projects, ensuring timely delivery and meeting stakeholder requirements.
- Created and maintained a technical writing style guide to promote consistency and clarity in documentation.
- Developed and maintained API documentation and specifications, user manuals, technical documentation, and online help files for complex software applications.

Senior Technical Writer

Jan 2020 – Oct 2020

Agiliad Technologies (Xebialabs)

Pune , Maharashtra

- Authored and maintained comprehensive product guides, significantly contributing to the scaling of customer satisfaction and product adoption.
- Acquired a deep understanding of Cloud services, DevOps, and microservice architecture, translating complex product information into clear, polished, user-friendly, and engaging content specifically tailored for developers.
- Independently managed multiple concurrent projects, involving in-depth research, outlining, drafting, and updating new and existing content. Worked collaboratively with various stakeholders to thoroughly understand and meet documentation requirements.
- Served as a key reviewer and editor for colleagues, providing comprehensive feedback and edits focused on clarity, accuracy, grammar, and adherence to established style guides.
